

MSC eBL SOLUTION WE MAKE IT SIMPLE

In an increasing digitalized world, everyone expects to access data and documents online 24/7 from anywhere. The eBL is an original electronic document. It has the same legal value and replicates the functions of an original BL in paper, but electronically. Digitalize your documentation and adopt the MSC eBL solution now!

TRANSFER YOUR BILL OF LADING ELECTRONICALLY

FASTER

- Documents transferred in minutes, instead of weeks
- Accelerated payment times

SAFER

- Secured and encrypted by blockchain technology
- Automatic verification and authentication
- Increased security for your documentation: no risk of BL loss (no more costs of insurance/guarantee), forgery or fraud

GREENER

- Paperless process
- Reduced carbon footprint

COST-EFFICIENT

- No courier fees to send your documents multiple times (e.g. for modifications, updates, etc.)
- Avoid additional costs as the documentation will be ready before your containers reach their destination

SIMPLER

- User-friendly platform
- Accessible from any device or location, 24/7
- Online training session available
- No change to the booking and shipping instructions process (after your draft validation, you receive your MSC eBL)

3X
FEWER

PROCESSING COSTS

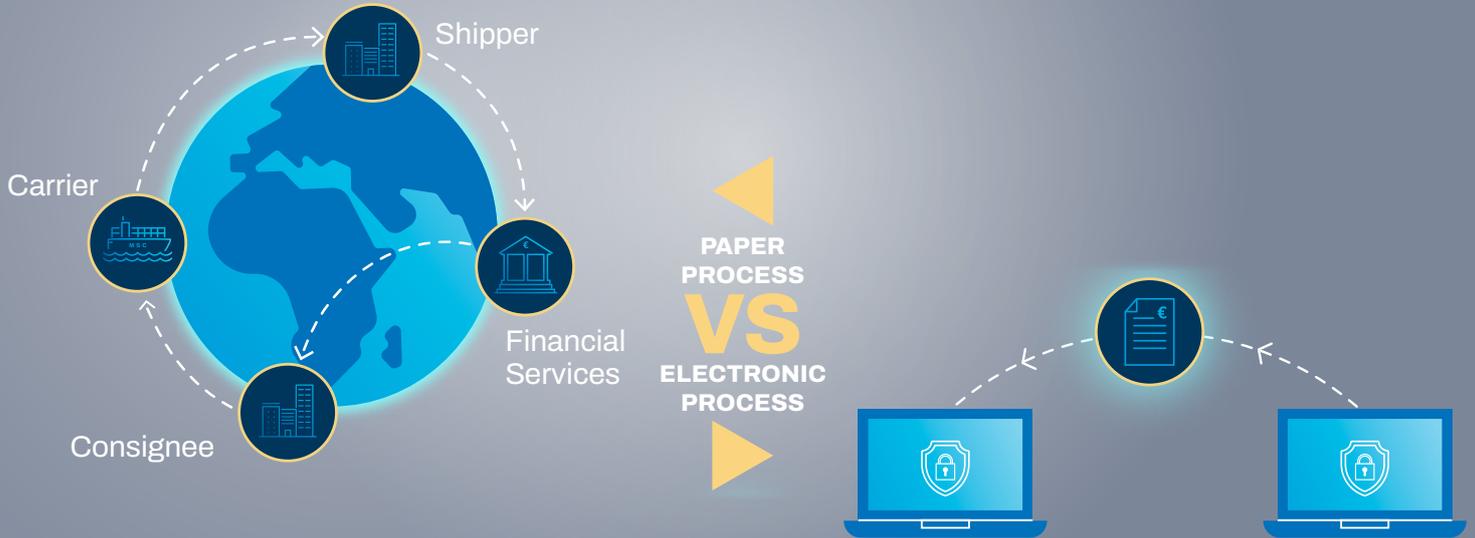

4\$

REDUCE COSTS
UP TO AN ESTIMATED
BILLION PER YEAR
with a 50%* industry adoption rate by 2030

DIGITISE YOUR TRADE DOCUMENTS

Physically moving important trade documents between exporters, shipping agents, banks, importers and other parties is a complex and costly process, which can lead to delays and disruption. Fortunately, the electronic Bill of Lading or eBL now offers a more efficient, secure and sustainable digital alternative.

SAVE TIME WITH THE ELECTRONIC ENVELOPE

With the electronic envelope all your documents are available at any time, safely stored in one single place. Upload additional documents* and store them safely in the electronic envelope after the MSC eBL issuance:

- Commercial Invoices
- Packing Lists
- Electronic Certificates of origin
- Certificate of conformity

*Other official certificates and customs documents depending on country regulations & acceptance.

YOUR NEXT STEPS:

- Register for free on www.msc.com/ebl
- You can book a session with the solution provider to get help on the activation/setup of your account if needed.
- Identify a port pair to start working with MSC eBL and invite a business partner to join you on our MSC eBL solution directly from your MSC eBL application.
- Send your booking & shipping instructions **asking for an eBL** via your **mymsc** account or other means you usually use to confirm your instructions.
- Receive your first MSC eBL and book an online session with the solution provider to get assistance on your first MSC eBL transfer.
- Invite more business partners and digitalize more shipments by getting help from your local MSC representative to increase your eBL usage.
