SUSTAINABILITY

MSC is dedicated to creating connections and fostering the growth of communities and local businesses worldwide, including in remote forestry areas where transportation plays a critical role. As a global organization, we're committed to being present wherever our customers are – helping to build the foundations for economic growth by removing barriers to trade and connecting local businesses to a global marketplace.

We are in a unique position to contribute to the decarbonisation of global supply chains and aim to reduce emissions across our global operations towards our target of net zero decarbonisation by 2050.
