“DALI” – General Average Declaration

On 26 March 2024, in the course of laden voyage, the vessel contacted Francis Scott Key Bridge in Baltimore, USA. As a result of this, ship and cargo were in a position of peril and required salvage services to free the vessel from the collapsed bridge and bring her to a place of common safety. The local salvors have engaged in salvage operations.

As a consequence of the above, shipowners hereby declare General Average and have appointed Richards Hogg Lindley / Charles Taylor (Japan) Ltd. as General Average adjusters. General Average shall be adjusted in accordance with York-Antwerp Rules 1994.

Before any cargo can be released to owners at destination, General Average security will need to be provided. For instructions and copy of the relevant form, please refer to the attached files.

We thank you for cooperation in this matter.

Regards,

Heng Tock Hin Anthony, Director
