Used cars/car parts via Contargo Neuss

The procedure is as follows:

- The customer instructs all loading places about the correct way of loading used car parts, free of all remaining liquids
- Loading address/shipper declares on CMR that no items have been loaded in the container that could leak
- If leakage does occur, the loading address/shipper will accept, in addition to any cleaning and inherent costs, an administrative fine of Euro 1000 per case.

The agency will need written confirmation from the customer that above mentioned items are accepted and adhered to. This confirmation should be forwarded to Medlog for acceptance of the bookings by Contargo Neuss.
