

GENDER PAY GAP STATEMENT

2023/24

1. OVERVIEW

Since 2018, all UK companies with 250 employees or more are required to publish a 'Gender Pay Gap Report'. Here at MSC UK, we welcome the introduction of any initiative which helps promote fairness in the workplace, including reducing gender pay gaps.

2. OUR DEMOGRAPHIC

This pay gap report is based on our snapshot date of 5th April 2023.

Our calculations are based on a total of 952 relevant employees, 494 (52%) of whom were male and 458 (48%) were female.

Whilst the vast majority of our employees are included in these calculations, certain employees are excluded. People who were on reduced pay (e.g. due to sickness and/or statutory leave such as maternity, paternity, shared parental or adoption) are not included.

3. OUR GENDER PAY GAP

Overall, we have a mean gender pay gap of 19.3%, and a median gender pay gap of 5.2%. This compares to a 2022/23 UK average (for those who reported) median pay gap of 12.0%.

Our pay gap is explained by the fact that we have proportionally more men in our most senior positions.

4. OUR GENDER BONUS GAP

We are reporting a median bonus gap of 5.5%.

We have a mean bonus gap of 21.3%.

98.3% of our female employees received a bonus in this period, compared to 96.0% of males.

5. OUR DATA

The full detail of our gender pay gap is as follows:

Pay Gap

Mean Gender Pay Gap	19.3%
Median Gender Pay Gap	5.2%
