

	Engine Compliance Letter	Edno:	1
	OTH-PD-2024-0003	Effective Date:	01-Nov-2024

Safety in Mind...

To ensure safe and compliant transport of your aircraft engines, the attached form must be completed by the shipper or their representative agent. MSC Air Cargo will not accept engine consignments without this form, as it ensures the smooth and secure handling of your cargo.

AWB Number	Origin Airport (3-letter code)	Destination Airport (3-letter code)

Shipper Name and Address	Consignee Name and Address

Engine Type and Transportation Declaration
<p>I hereby declare the following engine make and model:</p> <p><input type="checkbox"/> The engine is mounted on an aircraft engine stand certified for air transport.</p> <p><input type="checkbox"/> The engine is securely fastened using tight-fitting bolts, clamps, and/or pins, along with self-locking nuts or cotter pins. The bolts and pins are sized to match the engine lug holes where they are installed, and the appropriate torque has been applied to the bolts and nuts according to the engine manufacturer's specifications.</p>
